

The General Comments / Suggestions for the 2013 English
competition

School category: Jr. High School

Competition category: Sentence Making

Date: 102/12/07

Comments / Suggestions

Several of the Jr. high students left their answers blank on several of the questions. They may have been confused about how to use the words with correct grammar or weren't sure how to spell its accompanying vocabulary words. I would suggest, however, that the students at least try to put sentences together. Practice does make perfect, however, so you gotta just keep trying!

Also, as for the test layout, I would like to see some questions with 2 key words so students can practice making sentences with the selected vocabulary (2 words rather than 1). This would give students opportunity to be more creative with their sentences and get more practice with grammar and sentence structure.
