- ① A large number of students were unfamiliar with the following words/phrases or their usage.
expression / require / inspire /
consequently / as long as / despite /
if only / it's high time that.
- ② Sentence fragments and run-on sentences are an issue for some students. Run-ons with coordinating conjunctions are a serious error.
- ③ One or two students taking part appear to have native-user ability. These should be encouraged to develop clear cursive handwriting and progress from childish "print" style.
